@isbw2018

Join us in Singapore to discuss the changing face of seagrass science, communication, and conservation, and how old paradigms can be refreshed to take on the key challenges to seagrass habitats in the future.

Themes:

- Community engagement, outreach and public awareness
- Seagrass biology and ecology
- Faunal Interactions
- Ecosystem services
- Resilience, restoration and management

Events:

- Plenary talks by distinguished speakers
- Oral and poster presentations
- Engaging workshops
- Fieldtrips to local nature sites
- Conference dinner and social events

Supporting institutions: DHI Water & Environment, National Parks Board, National University of Singapore
